

July 2011

## Lintec contributes to CIMAC

In May 2011 Michael Green, Lintec's Technical Manager, attended the 64th meeting of Working Group 7 (Fuels and lubricants) of CIMAC – the International Council on Combustion Engines - which was held in Madrid and hosted by CEPESA.

Current activities of Working Group 7 (WG7) include the preparation of practical guidelines on (i) the availability of low-sulphur fuels (ii) ignition and combustion quality (iii) the properties of fuel as it enters the engine (iv) extended testing (v) Biofuels (vi) contaminants and filtration.

Lintec has joined CIMAC as part of the UK Membership Association and is currently contributing to the redrafting of the guidelines on Low Sulphur Fuel.

Michael is looking forward to attending the next meeting of WG 7, scheduled for November 2011 in Singapore.
