

Supplement to Summer 2010 edition

Lintec awarded Incentra supplier of the year for 2010

Further to the article in this edition of Testing Times, we are delighted to announce that Lintec has once again been awarded “Supplier of the year” by members of Incentra a/l - and the award came with an increase on the rating given in 2009.

Lintec's Steve Bee and Michael Green receiving the award of 'Supplier of the year' from Mrs. Heide Kilde, QA Manager for Incentra a/l, at the Incentra Members' Dinner in Oslo which took place on 7th September 2010.

Echoing last year's comment, Geoff Jones, Lintec's General Manager, said “To once again be the supplier with the highest score in the Incentra supplier evaluation is something we are very proud of. It is very rewarding to see the high level of service we give being recognised year-on-year by the membership of Incentra. We would like to thank the members of Incentra a/l for their continued support.”

Incentra a/l, a Non-Profit Marine Purchasing Association primarily for Norwegian ship owners, was formed to achieve a corporate effect and purchasing power by joining up the members' forces to secure the society the best possible terms and conditions.

Incentra a/l is selective in choosing product areas and suppliers, and each framework agreement is a result of thorough market research and evaluation of each supplier's ability to comply with the quality standards required by the members
